

To

Shri Anil Vij
Hon'ble Minister of Sports and Youth Affairs,
Government of Haryana.

Subject : To renovate and repair existing badminton hall in district Mahendergarh.

Hon'ble Sir,

I am writing on behalf of myself and other Badminton enthusiastic people of Narnaul and Mahendergarh. I would like to bring your attention to Badminton and other sports facility in district Mahendergarh.

We have very limited sports facility in district Mahendergarh. We have only one badminton hall in which is also in very bad condition and badly need renovation and repair work. Current playing surface is made of concrete which is not good for playing. The loosely bound concrete surface create dusty environment in hall while playing which is health hazarding. Lighting in the hall is not adequate. most of the lights and not working or not producing adequate luminosity. On a rainy day rain drops come to floor through broken roof.

Existing hall needs below listed work:

1. Wooden sports floor with court mats
2. Badminton specific lighting
3. Roof Repair
4. Roof and wall colours as per sports need
5. Lavatory
6. other small repairing work

Haryana has history of producing world class athletes. Our district also has potential of producing sportspersons. Young badminton players are forced to leave their homes and train themselves at different places. If existing badminton hall is renovated and repaired, the same badminton hall can serve good number of players and this step can boost sports culture in the area. The 3 court hall can be utilised to train players for competitive badminton.

People of district Mahendergarh will be very thankful to you and appreciate all that you do for our district. I look forward to seeing positive changes. Thank you for listening.

Sincerely yours,

Jitender Aryan
